Successful Bash & Crash - Marketing Event!!

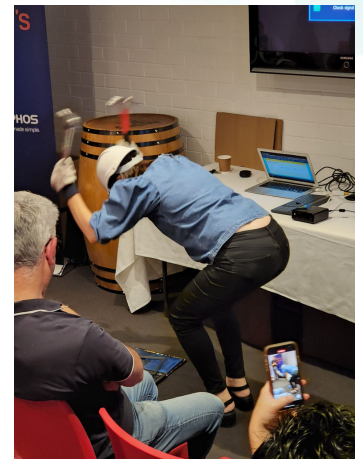

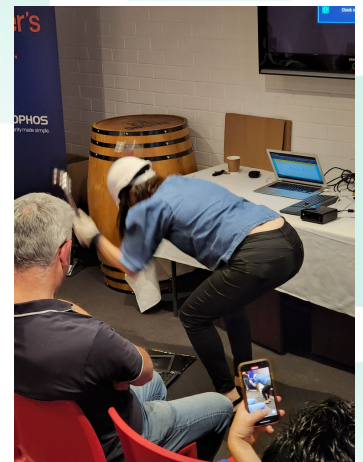

We would like to thank all our customers who attended the Bash & Crash event at the Gladstone Park Hotel on Thursday 10th March.

We were joined by Sophos and Datto – where we discussed the IT Security challenges faced by businesses, present state of the market, types of challenges, variety and methodology of attacks, phishing attempts. We covered in detail the steps to prevent these threats.

We had the Datto team present on how to recover and go to production in minutes from a Cyber attack or critical H/W failure – We also did Bash a perfectly working laptop and successfully recovered it to full production as a virtual machine in minutes.

See below the photos from the event.
